

Mercury is Highly Toxic.

DO NOT dispose of any mercury **thermometer**, mercury **thermostat**, **fluorescent bulb**, **CFL bulb** or any product containing mercury in the **trash** or **recycle bin**. Please ask one of the Transfer Station staff for the location of the Mercury shed for safe storage of these materials.

- **Mercury Thermostats** can be exchanged for a **FREE** new **Programmable HVAC Thermostat**
- **Mercury Thermometers** can be exchanged for a **FREE** new **Digital replacement thermometer.**

ONE of each item is available per family in order to serve as many households as possible. (Available while supplies last.) To exchange your old mercury items, bring them to the Kingston Highway Department during regular office hours at 32 Evergreen St Kingston, MA 02364

(Exchange program sponsored by Covanta of SEMASS)

Mercury is Highly Toxic.

It affects the brain, spinal cord, kidneys and liver. Spilled mercury, like broken thermometers & thermostats are dangerous to you and your family.

If you break a mercury containing item, call the MassDEP Mercury Hotline at 1-866-9MERCURY for appropriate clean up and disposal information <http://www.mass.gov/dep/toxics/stypes/hgres.htm#dispose>
