Volume to be removed per day _____

Description of material _____

**TOWN OF KINGSTON
Earth Removal Application**

Destination of material:

On Site: _____

Off Site: _____

Requested hours of operation:

Monday through Friday: _____

Saturday: _____

PLEASE ATTACHED PLANS SHOWING THE FOLLOWING:

- I. The precise location of the proposed excavation as part of the total land area of the subject property.
- II. Property lines with certified names and addresses of all abutters, including those across any way.
- III. Existing contours at two-foot intervals in the area from which material is to be excavated and in surrounding areas, together with the contours at two-foot intervals below which no excavation shall take place.
- IV. Natural features such as wetlands, the 100-year floodplain, ground cover, surface water and groundwater. (Water-table elevation shall be determined by test pits and soil borings satisfactory to the Board of Selectmen.) A log of soil borings shall be included, taken to the depth of the proposed excavation, congruent with the size and geological makeup of the site.
- V. A topographical map showing contributory runoff and direction of flow; drainage facilities; location of wells, test pits, and borings; final grades, proposed vegetation and trees; and location and elevation of the permanent monument.
- VI. Dust, erosion, and sediment-control plan for the site, for all earth-removing equipment and truck traffic.
- VII. The amount and cost of proposed restoration materials, and the source from which the applicant intends to obtain them, the location of any existing topsoil stockpile.
- VIII. Estimated quantity of material to be removed, the quantity and estimated quality of topsoil to be replaced, and the location of any on-site stockpiling of topsoil to be removed under this application.
- IX. An estimate of the number of per diem truck trips, location of truck routes and hours of truck traffic.
- X. Designation on the required plan of any and all proposed phases and the number of cubic yards to be excavated in each, none to exceed five acres or 200,000 cubic yards, whichever is less.

AS PART OF YOUR APPLICATION, PLEASE SUBMIT PROOF THAT YOUR PLANS HAVE BEEN SUBMITTED TO THE BOARD OS HEALTH, BOARD OF WATER COMMISSIONERS, AND CONSERVATION COMMISSION.

PLEASE STATE FORM OF SURETY PROPOSED TO GUARANTEE RESTORATION OF SITE AND MAE AND ADDRESS OF SURETY COMPANY.
