Press Release

WATER RESTRICTION

As part of the town’s water withdrawal permit and the decreased flow level in the Jones River, the Board of Water Commissioners has implemented an even/odd days schedule to be effective immediately, as follows:

Even numbered houses may water on even numbered days. Odd numbered houses may water on odd numbered days. The permitted hours for outside use of water for all residents are before 9am and after 5pm.

Please help us conserve the water supply by obeying this water restriction.
